MULTI-drill

 MADE IN USA

QUALITY, PRECISION, & DURABILITY

The MULTI-drill by 1st Products is your go-to solution for efficient and precise planting. Designed with the modern farmer in mind, the MULTI-drill ensures accurate seed placement, boosting crop yields and reducing costs. Its durable build and easy-to-use features make it ideal for a wide range of applications, from traditional crops to specialty plants. Trust the MULTI-drill to enhance your planting process and deliver the results you need for a successful harvest.

- ✓ **VERSATILE PLANTING CAPABILITIES**
- ✓ **PRECISION & EFFICIENCY**
- ✓ **ROBUST & USER-FRIENDLY**

“The ND-60 No Till Drill has been the single most important purchase I’ve made for my food plot business. My 35hp tractor handles it perfectly. This drill has proven to be a true no till drill—no tilling required—which has made my planting time much more economical for my clients and more efficient for myself.

When purchasing a drill, I was looking for three qualities: dependability, ease of use, and affordability. The 1st Products drill exceeded all my expectations. Over a two-year period, I have planted roughly 200 acres of food plots with this drill, and it has performed flawlessly.

I have successfully planted seeds ranging from clover to corn. The seed charts are easy to understand, and after conducting the one-minute test, the seed weight always comes out within ounces of the chart’s prediction. Hook the drill up, follow the chart, and plant—it’s that simple.

Thank you, 1st Products, for creating an implement that doesn’t require an engineer to operate.”

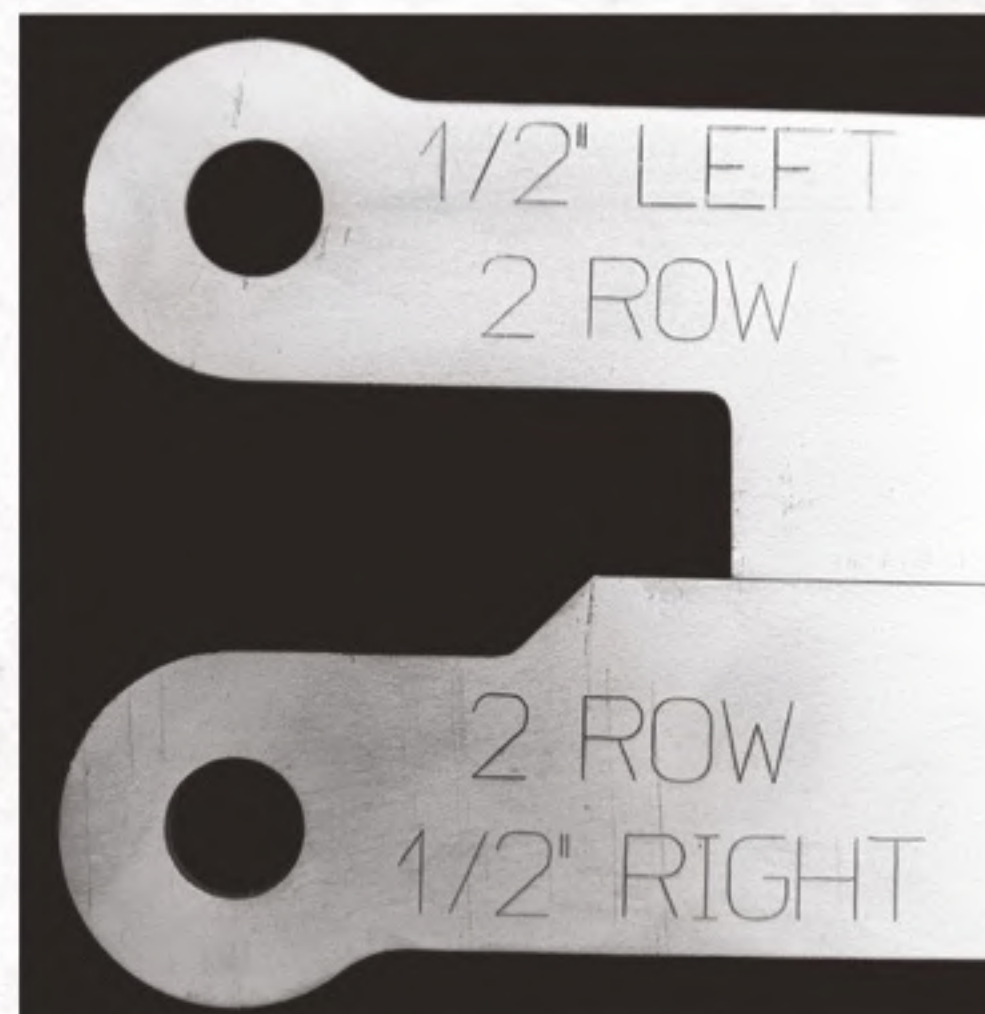

KEITH HAYWOOD
Wildlife Addiction Food Plot Services LLC

MULTI-DRILL FEATURES

2-ROW PLATE KIT

The corn plate kit can easily convert your drill into a 2 or 4 row planter (depending on model). The corn plate kit will only plant 2 rows on 27" row spacing which is ideal for corn or sunflowers.

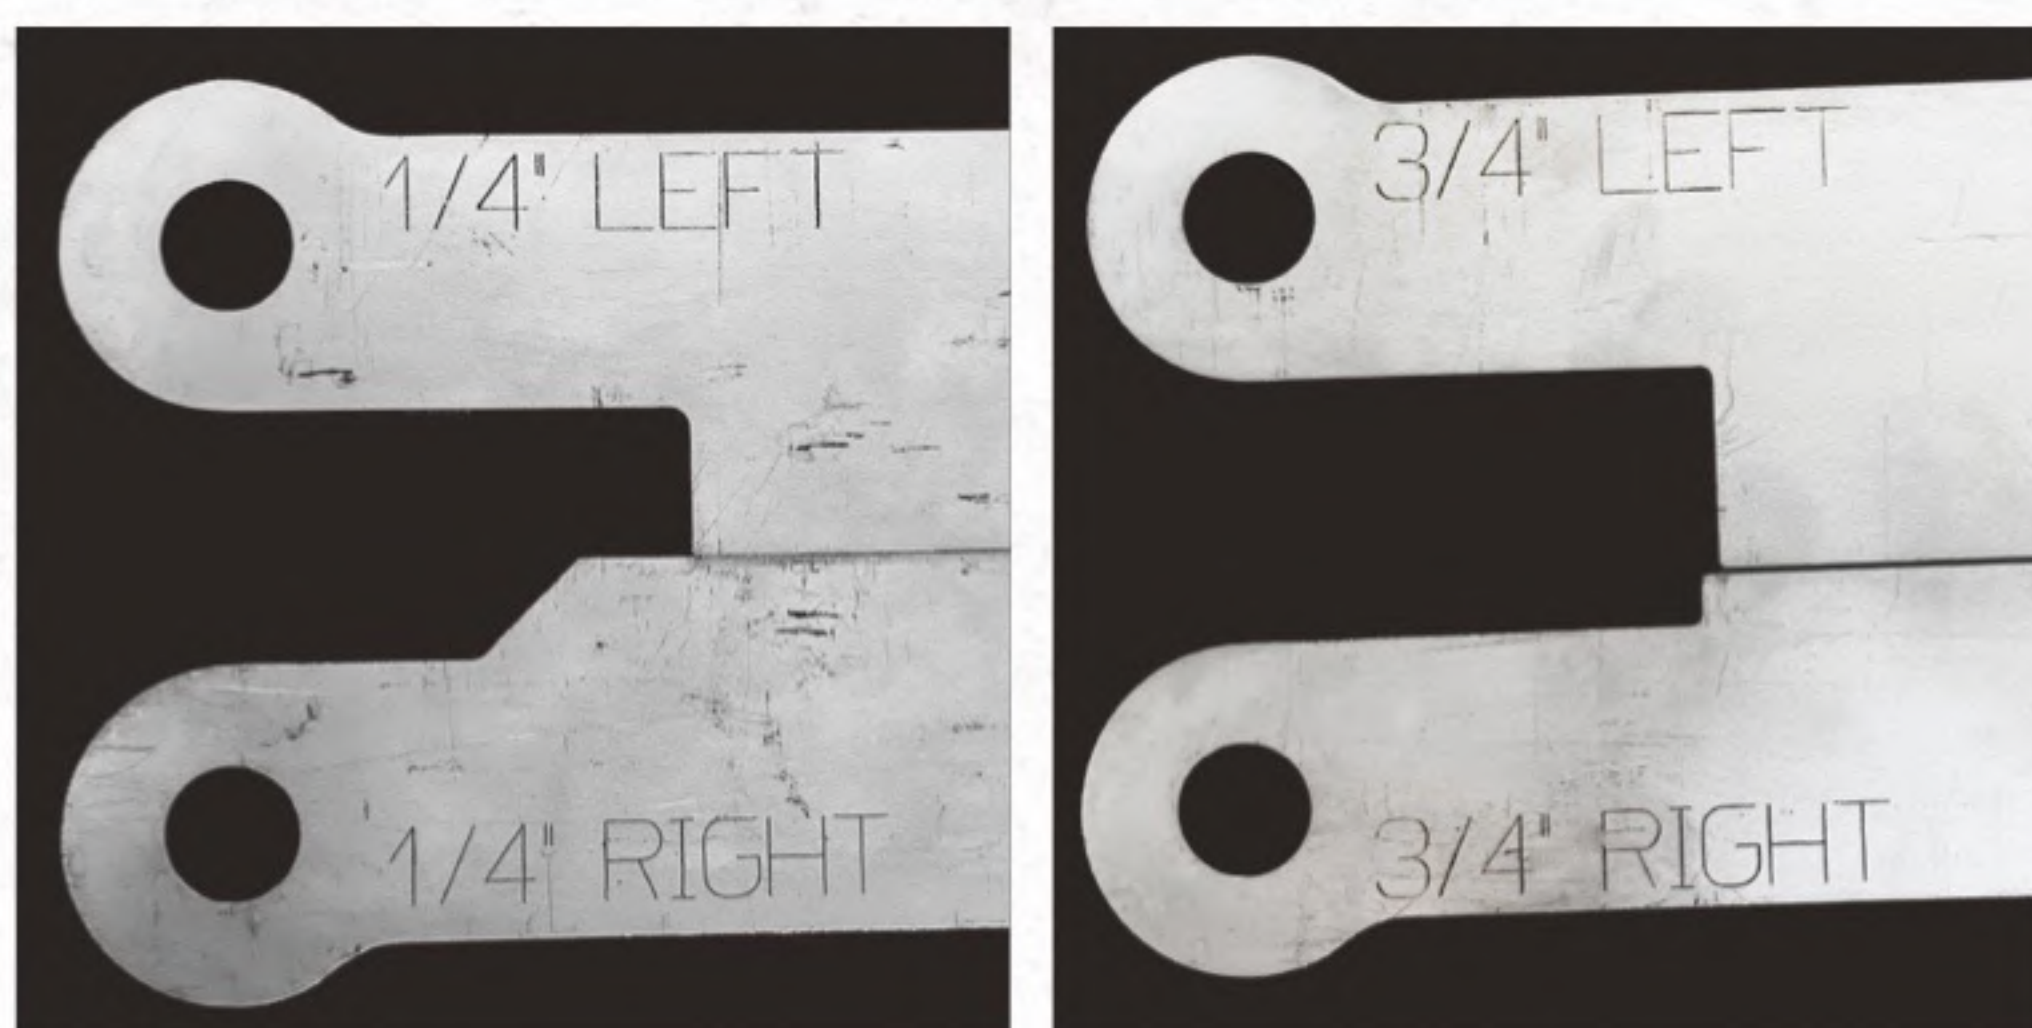

AUXILIARY HOPPER

The Auxiliary hopper is a smaller, second seed hopper that can be added to the drill. By adding the Aux hopper, this allows the operator to plant two different things at the same time at two different rates.

DRIVE MECHANISM

The MULTI-drill utilizes a 12V power supply from the tow vehicle which operates the electric motor and actuator. With a "pistol grip" on/off controller, the operator can easily control when the drill is planting. When the drill is switched to the on position from the comfort of the seat, the agitator rotates allowing constant flow of seed and the actuator slides the seed plates open for seed to flow. When turned to the off position, the agitator stops and the actuator closes the seed plates.

SEED PLATE/DELIVERY

Each MULTI-drill comes standard with 4 sets of seed plates. 1/4" 1/2" 3/8" and 3/4". This allows a wide variety of seed options for the operator including cereal grains, brassicas, legumes, grasses, mixes and blends. Custom plates are available.

TOW KIT

The ND-72, ND-96, ND-120, and ND-144 can be converted to a tow type drill by adding the tow kit. The tow kit easily mounts to the 3 pt hitch frame of the drill and hydraulic cylinders and hoses are included.

5FT MULTI-DRILL | ND-60

FEATURES

- Cover for Storage
- Rear Step and Walk Board
- Aux. Seedbox (optional)
- 4 Stainless Steel Seed Plates for Various Seed Size
- Variable Speed Electric Drive
- CAT I/II 3 Point Lift Only
- Conventional and No-Till Capability

PRODUCT SPECIFICATIONS

Drill Type: No-till/Conventional

Meter System: Slide Plate control

Overall Width: 80 in

Working Width: 54 in

Dry Weight (No Aux. Seedbox): 1780 lbs

Hitch Type: 3 point lift

of Openers: 6

Spacing: 9 in

HP Required: 40+

Machine Length: 59 in

Machine Height: 64 in

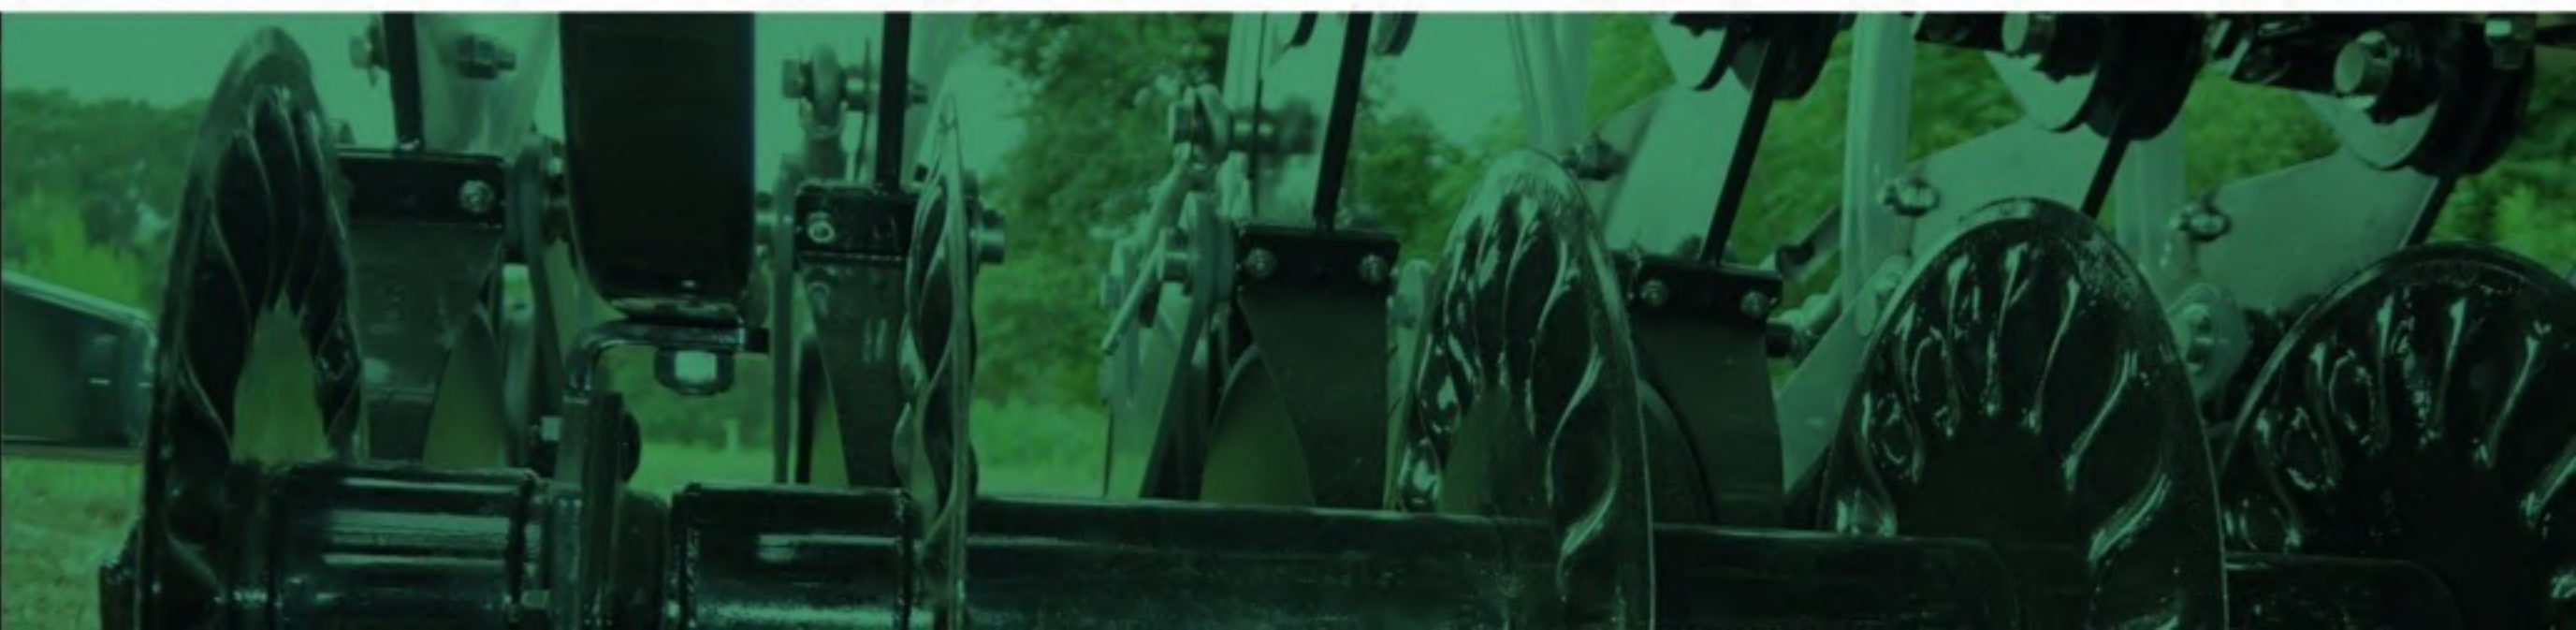

SEED CAPACITY

Main Box: 7.7 BU

Small Box: 2.8 BU

Depth Range: 0"-3"

Weight Bracket Capacity: N/A

5FT MULTI-DRILL | ND-60T

FEATURES

- Cover for Storage
- Rear Step and Walk Board
- Aux. Seedbox (optional)
- 4 Stainless Steel Seed Plates for Various Seed Size
- Variable Speed Electric Drive
- Self-Contained Lift
- Conventional and No-Till Capability

PRODUCT SPECIFICATIONS

Drill Type: No-till/Conventional

Meter System: Slide Plate control

Overall Width: 80 in

Working Width: 54 in

Dry Weight (No Aux. Seedbox): 2150 lbs

Hitch Type: Tow

of Openers: 6

Spacing: 9 in

HP Required: 40+

Machine Length: 110 in

Machine Height: 64 in

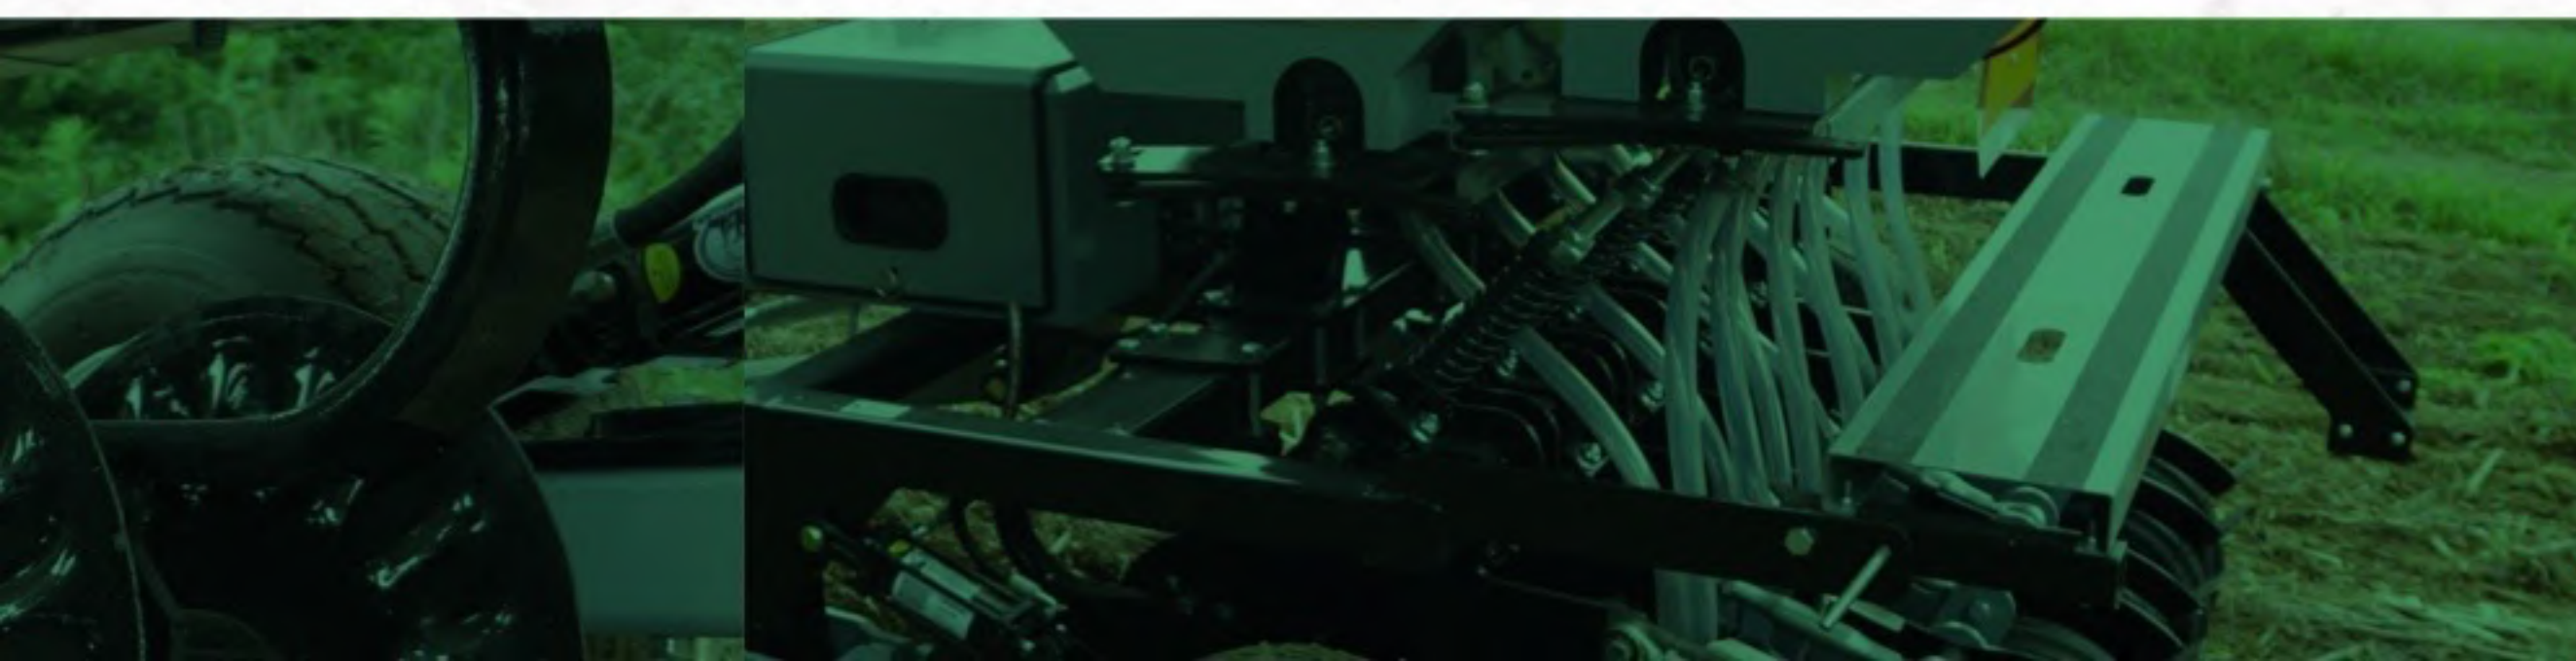

SEED CAPACITY

Main Box: 7.7 BU

Small Box: 2.8 BU

Depth Range: 0"-3"

Weight Bracket Capacity: N/A

6FT MULTI-DRILL | ND-72

FEATURES

- Cover for Storage
- Rear Step and Walk Board
- Weight Bracket
- Aux. Seedbox (optional)
- 4 Stainless Steel Seed Plates for Various Size Seed
- Variable Speed Electric Drive
- Conventional and No-Till Capability

PRODUCT SPECIFICATIONS

Drill Type: No-till/Conventional

Meter System: Slide Plate control

Overall Width: 98 in

Working Width: 72 in

Dry Weight (No Aux. Seedbox): 2540 lbs.

Hitch Type: CAT II, CAT III 3 point lift (standard)
or tow type (optional)

of Openers: 8

Spacing: 9 in

HP Required: 45+

Machine Length: 59 in

Machine Height: 64 in

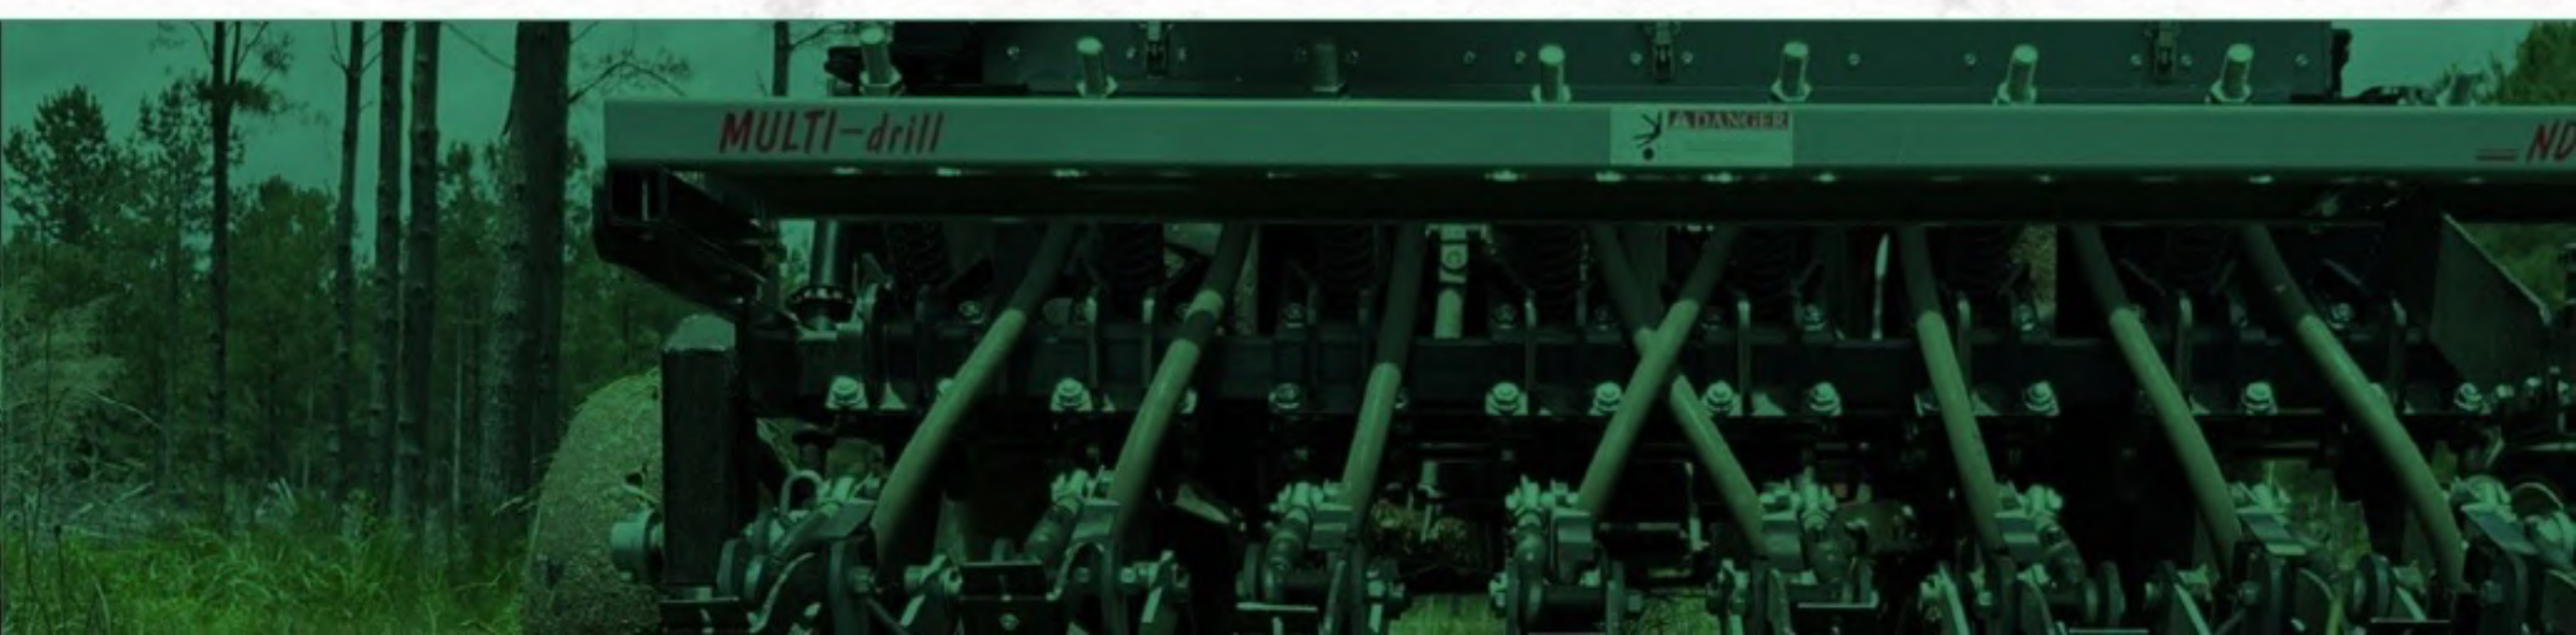

SEED CAPACITY

Main Box: 10.3 BU

Small Box: 3.8 BU

Depth Range: 0"-3"

Weight Bracket Capacity: 800 lbs.

8FT MULTI-DRILL | ND-96

FEATURES

- Cover for Storage
- Rear Step and Walk Board
- Weight Bracket
- Aux. Seedbox (optional)
- 4 Stainless Steel Seed Plates for Various Size Seed
- Variable Speed Electric Drive
- Conventional and No-Till Capability

PRODUCT SPECIFICATIONS

Drill Type: No-till/Conventional

Meter System: Slide Plate control

Overall Width: 116 in

Working Width: 90 in

Dry Weight (No Aux. Seedbox): 2850 lbs.

Hitch Type: CAT II, CAT III 3 point lift (standard) or tow type (optional)

of Openers: 10

Spacing: 9 in

HP Required: 50+

Machine Length: 59 in

Machine Height: 64 in

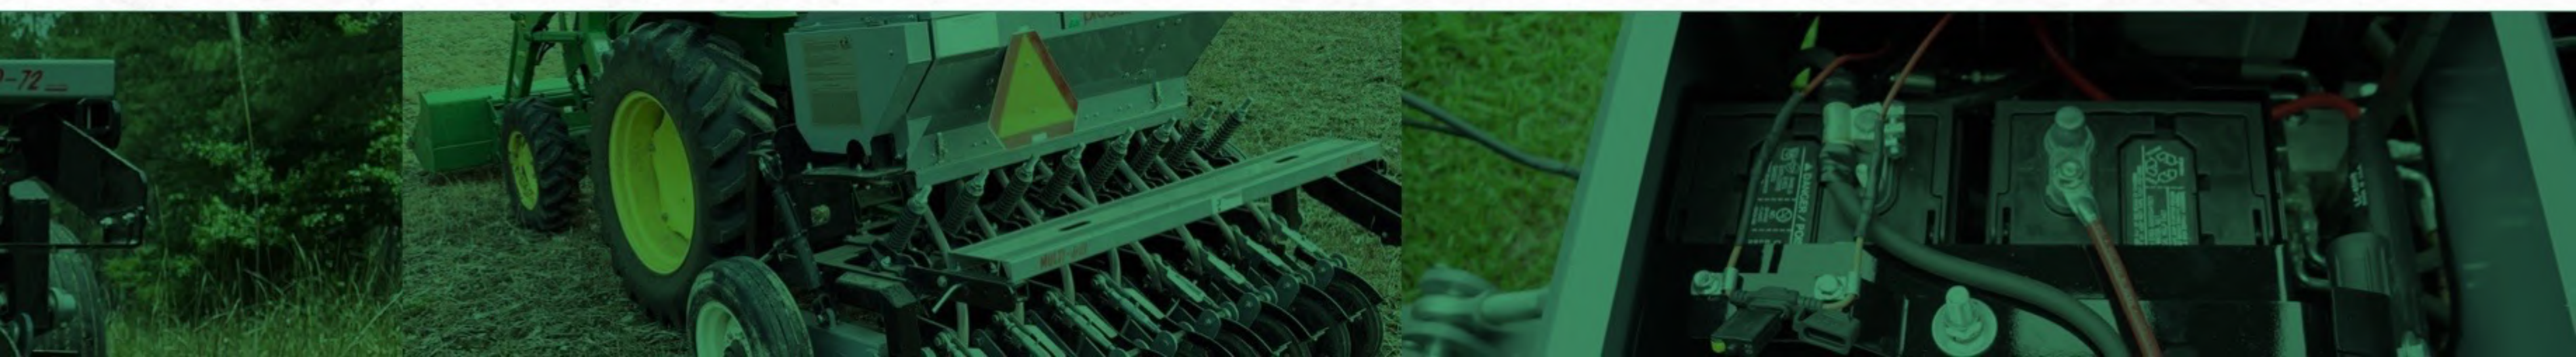

SEED CAPACITY

Main Box: 12.9 BU

Small Box: 4.75 BU

Depth Range: 0"-3"

Weight Bracket Capacity: 800 lbs.

10FT MULTI-DRILL | ND-120

FEATURES

- Cover for Storage
- Rear Step and Walk Board
- Weight Bracket
- Aux. Seedbox (optional)
- 4 Stainless Steel Seed Plates for Various Size Seed
- Variable Speed Hydraulic Drive
- Conventional and No-Till Capability

PRODUCT SPECIFICATIONS

Drill Type: No-till/Conventional

Meter System: Slide Plate control

Overall Width: 140 in

Working Width: 126 in

Dry Weight (No Aux. Seedbox): 4700 lbs

Hitch Type: Cat. II, Cat. III 3 point lift (standard) or tow (tow kit optional)

of Openers: 14

Spacing: 9 in

HP Required: 80+

Machine Length: 94 in

Machine Height: 64 in

SEED CAPACITY

Main Box: 18 BU

Small Box: 6.6 BU

Depth Range: 0"-3"

Weight Bracket Capacity: 1000 lbs.

12FT MULTI-DRILL | ND-144

FEATURES

- Cover for Storage
- Rear Step and Walk Board
- Weight Bracket
- Aux. Seedbox (optional)
- 4 Stainless Steel Seed Plates for Various Size Seed
- Variable Speed Hydraulic Drive
- Conventional and No-Till Capability

PRODUCT SPECIFICATIONS

Drill Type: No-till/Conventional

Meter System: Slide Plate control

Overall Width: 158 in

Working Width: 144 in

Dry Weight (No Aux. Seedbox): 4950 lbs.

Hitch Type: CAT II, CAT III 3 point lift (standard) or tow type (optional)

of Openers: 16

Spacing: 9 in

HP Required: 90+

Machine Length: 94 in

Machine Height: 64 in

Main Box: 20.6 BU

Small Box: 7.6 BU

Depth Range: 0"-3"

Weight Bracket Capacity: 1000 lbs.

WHAT OUR PARTNERS ARE SAYING ABOUT THE MULTI-DRILL

ROGER CULPEPPER | REALTREE

"Having the 1st Products no-till drill has been a game-changer for us. With its precise seed placement and easy adjustments, planting has never been easier. The drill cuts through trash effortlessly, ensuring good seed-to-soil contact. We planted buckwheat and clover, and it's already looking great. Switching from no-till to conventional planting is seamless—just move the seed tubes without changing any settings. This drill saves time and seed, making it a valuable tool for our plots. I highly recommend it for its efficiency and ease of use."

MICHAEL WADDELL | BONE COLLECTOR

"Using drills can be intimidating, but 1st Products made it simple with the MULTI-drill. It has quick start settings and once set, you're good to go for planting oats, wheat, soybeans, clover—whatever you need. The smaller bin is easy to adjust based on your speed and soil content. I didn't grow up with advanced farming equipment, but with this drill, I'm efficient and not wasting any seed. It's simple, easy, and well-designed. The three-point hitch version is perfect for my small food plots, allowing easy maneuverability. These rugged, American-made drills are definitely worth the investment."

PATRICK RECTOR | KILLIN THE GAME

"Calibrating my planter for different crops has never been easier thanks to 1st Products. Switching from corn to soybeans, I adjusted to 75 pounds an acre using the quick start guide and included tool. Setting the plate position and controller motor was straightforward, and the calibration was spot on. This equipment's convenience and accuracy have significantly improved my planting efficiency. 1st Products makes calibration simple and reliable."

“

IT'S SIMPLE, EASY, AND WELL-DESIGNED.

MICHAEL WADDELL — BONE COLLECTOR
